PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience designing and developing scalable, high-performance web applications using React.js, TypeScript, JavaScript (ES6+), Node.js, Express.js, and MongoDB. Strong expertise in React Hooks, Redux Toolkit, Context API, React Router, RESTful API development, authentication (JWT, RBAC), and MVC architecture. Proven track record in application migration (React 17–19, Node.js upgrades), performance optimization (code splitting, lazy loading, memoization), and secure API implementation. Experienced in Agile/Scrum environments with production deployments and cross-functional collaboration.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, React Hooks, Redux Toolkit, Context API, React Router, HTML5, CSS3, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, MVC Architecture, CRUD Operations

Database: MongoDB, Basic Schema Design, Data Modeling

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), Session Management, Secure Logout, Error Handling

Testing: Jest, React Testing Library, API Testing (Postman), Functional Testing

Performance Optimization: Code Splitting, Lazy Loading, Build Optimization, UI Performance Enhancement

Tools & DevOps: Git, GitHub, GIT-TFS, Postman, VS Code, CI/CD Concepts, Deployment Support

Libraries & Utilities: Moment.js, QRCode.react, Toaster Notifications

Third-Party Integrations: PayU Payment Gateway, Razorpay Integration, QR Code Validation

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Avya Inventrax Pvt Ltd | Feb 2025 – Jan 2026

- Developed enterprise-level SPAs using React.js and Redux Toolkit serving 5,000+ users.
- Designed reusable component architecture reducing code redundancy by 30%.
- Implemented JWT-based authentication and RBAC improving application security compliance.
- Optimized frontend performance using memoization and lazy loading reducing load time by 25%.
- Integrated REST APIs and ensured seamless data synchronization between frontend and backend systems.

Associate Software Engineer

ITPrior Innovations Pvt Ltd | Mar 2023 – Feb 2025

- Built scalable web applications using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Developed 20+ RESTful APIs handling large-scale CRUD operations.
- Migrated React 17 applications to React 19 improving performance and maintainability.
- Upgraded backend runtime from Node.js 16 to Node.js 22 resolving compatibility issues.
- Improved application maintainability through modular component design and structured architecture.
- Conducted unit testing and API validation ensuring high application reliability.

React Intern

ITPrior Innovations Pvt Ltd | Dec 2022 – Feb 2023

- Assisted in React UI development and feature enhancements.
- Fixed critical UI bugs improving user experience and responsiveness.

PROJECT EXPERIENCE

GMMCO – Warehouse Management System (WMS)

Team Size: 4 | Duration: 7 Months | Role: React Developer

- Developed warehouse modules using React.js and REST APIs.
- Improved workflow efficiency and frontend scalability for high-volume operations.
- Maintained version control using Git and ensured stable production releases.

SKUBIQ – Warehouse Management System

Team Size: 6 | Duration: 5 Months | Role: React Developer

- Migrated legacy frontend to latest React version improving stability by 20%.
- Implemented RBAC and resolved security vulnerabilities identified during testing.
- Built reusable and scalable UI components.

FABRIC_MES

Team Size: 5 | Duration: 6 Months | Role: Team Member

- Migrated application to React 19, upgrading dependencies and optimizing build processes.
- Upgraded backend runtime from Node.js 16.16.0 to Node.js 22.15.0.
- Applied modern React best practices and ensured backward compatibility.

PRESS CLUB

Team Size: 6 | Duration: 8 Months | Role: React Developer

- Developed event booking and advertisement management platform.
- Designed responsive UI for multiple user roles.
- Improved application performance and user engagement.

ZENOSURE – Healthcare Platform

Team Size: 7 | Duration: 10 Months | Role: React Developer

- Developed registration, subscription, and payment modules.
- Integrated PayU and Razorpay payment gateways.
- Implemented Aadhaar & PAN-based KYC verification workflows.
- Integrated QR code validation and real-time notifications.

EDUCATION

Bachelor of Technology (B.Tech) – Raghu Institute of Technology (2017–2020)

Diploma – Sanketika Polytechnic College

SSC – Geethanjali High School
